Me2 Screens is proud to introduce **LOOP**. **LOOP** is a range of contemporary, understated fabric covered screens, designed to introduce a level of crisp, clean simplicity that is often absent in entry level products.

A combination of keen pricing, superior build quality and considered design ensures that **LOOP** screens represent excellent value for money, whilst remaining appropriate for use within the widest range of office interiors.

LOOP screens and brackets have been designed and engineered to integrate with a broad range of desk types, and especially those based on underframes manufactured by **Me2's** parent company **Rack Systems**.

LOOP screens comprise of 25mm thick fabric covered panels, framed with a contrasting 25mm wide, 4mm thick extruded PVC profile. Available in white, silver and black, this edging detail echoes the latest colour trends in office furniture.

All **LOOP** screens are finished in fire retardant fabrics, which can be specified in a huge range of colours. The addition of an optional accessory rail enables a range of popular screen hung accessories to be mounted on the screen, thus further enhancing the screens functionality.

LOOP

- * 25mm screen thickness
- * 4mm PVC edging
- * Huge range of colours available
- * Clean, crisp design
- * Accessory rail option
- * Excellent value
