Me2 Screens is proud to introduce **SOLO**. Constructed from 5mm frosted perspex panels, **SOLO**'s clean, crisp design has been consciously conceived to reflect the latest trends in office furniture.

The use of perspex panels and cleverly engineered bracketry, ensures that **SOLO** screens will integrate seamlessly with a wide range of desk types, and especially those based on underframes manufactured by **Me2**'s parent company **Rack Systems**.

The **SOLO** product family consists of **SOLO-straight**, **SOLO-wave** and **SOLO-arc**, and all are available in a choice of distinct frosted perspex colours.

Thoughtful design, clever engineering, beautiful build quality and competitive prices ensure that **SOLO** screens can be confidently specified for use within the full hierarchy of office interiors.

SOLO screens use 5mm perspex with beautifully flame polished edges for a high quality finish, and are available in a variety of coloured frosted options.
